About

At Marina Luri Events, we believe that every client is unique, and every event should be, too. So when we set to work on a proposal for you, you can rest assured it will fit your needs, budget, schedule, and vision.

As a full-service design, planning, and production company, we are part of the process from the first meeting until the last guest says good night. However, we can jump into the planning at any stage to offer creativity and organization.

Our worldwide connections and our knowledge of languages, cultures, and traditions allow us to be both global and local. From fundraising to fashion, our years of combined experience mean you never have to worry about a thing.

We invite you to discover why the difference is in the details...

Experience

Marina Luri Events has planned and produced social, corporate & nonprofit events throughout Europe & the United States for over 10 years. We are hardworking, enthusiastic, and creative people who love what we do.

We have executed events ranging in size, from an intimate wedding for two to a sit-down dinner for 900 featuring a private concert by Andrea Bocelli. Past venues include the Metropolitan Museum of Art (where we managed a private concert by Beyoncé) and the Central Park Zoo (where we were entertained by Charlie the sea lion). Overseas, we have had a party in a palazzo and a polo championship on a private island.

We understand and appreciate our venues and collaborators, not to mention the team effort needed for an event to be successful. We also work tirelessly to find solutions for our clients. Whether it's transporting a wedding cake to the island of Capri or ushering VIPs on small boats through the narrow Venice waterways – no task is too small, no challenge too great.

Services

Corporate Events – Non-Profit – Weddings – Mitzvahs

What They Are Saying...

"Marina and her team made us feel right at home from our first meeting. They understood what we wanted and helped us with every little detail. Our wedding was truly magical!" Emma & Jason

"If you are looking for not just a wedding planner but someone who has the ability to really listen to your needs, and then implement them to perfection then you should consider Marina and her staff. I was leery as I had a previous experience that was not the best. The moment that I sat down with Marina, I knew that she would take the stress and worry off me and my family. She is someone who, simply put, just gets the job done. If there was any type of blip, I never knew - because everything she does is with grace." Barbara

"Marina and her staff are superbly professional. More importantly, they have very high standards that exceed our own. Finally, their creativity allowed us to suggest ideas that they then developed into amazing outputs. They exceeded our expectations on all levels and created a very special, memorable event." Bruce

"Thank you Marina for giving me (along with my husband of course!) the best day of my life. From designing the floorplan and seating arrangements to the flowers and table displays and everything in between – Marina and her team created a magical moment that we will all remember forever." Christina
