*Hello!*

Our journey together started when we met in Leeds, UK, while doing our undergrads in Multimedia. When we met, we were instantly infatuated with one another. We fell in love and became best friends.

Sharing a strong passion for creativity and a thirst for new stories and experiences, we set up our business together in 2009. From our fully and professionally equipped studio space we provide some of the best photography and film services in Bahrain and the region. We work on weddings, fashion shoots and commercial photography, in addition to a wide range of creative projects.

When it comes to weddings, we believe in capturing experiences to remain as real as possible on film. Therefore, our photography and filming style is natural and intimate, with very little interference with the available light, environment and natural poses and movements of the newlyweds and their guests.

We keep it real and we love what we do, that's how we know we do it well.

*Get in touch and let's discuss  
your wedding photoshoot!*

### Capturing Low Light Weddings

We have the most advanced cameras in the market. Whether we blend the ambient light with our lighting system or capture images using the available light alone (which we love too), you'll get the best, high-quality photos for your wedding.

### Ladies Only Weddings

If you have a ladies-only wedding, Khatoon and her assistant Aalaa will take care of you. They make a superb passionate and creative team.

### Wedding Films & Videography

Your wedding is unique and should be shot in a unique way, and that's why we use modern cinematography techniques and equipment to shoot wedding films. Not only does that add much creativity and elegance to the film, this approach also captures the special moments of the day in a unique and natural way, including laughs, emotions, movement, dancing as well as the energy and love that's spread in the air.

Every time you watch your wedding film again, you'll be able to happily relive parts of your wedding celebration and maybe remember and discover moments that you did not witness on the day!

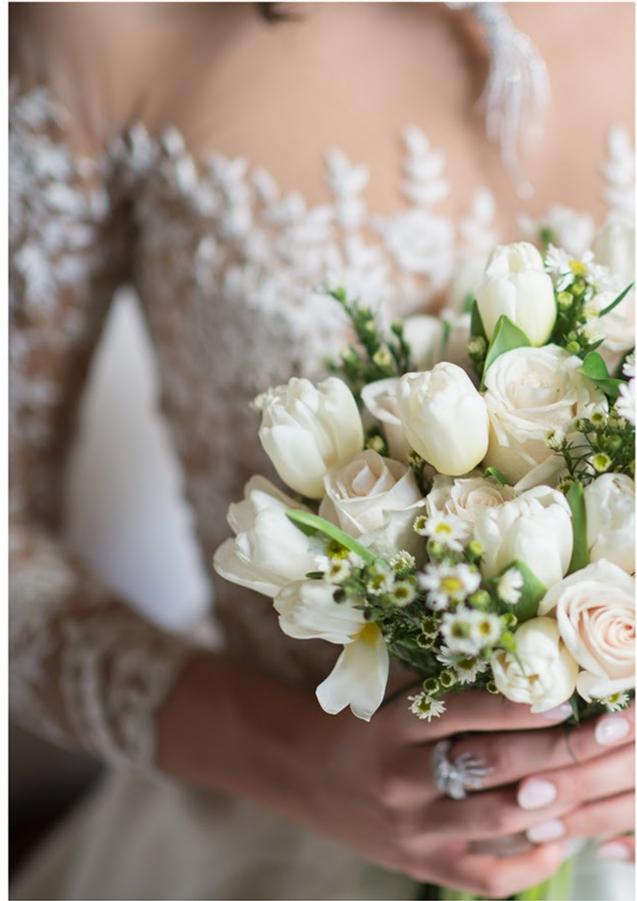

### Local & International photography

Besides covering local weddings in Bahrain, we also cover destination weddings and celebrations outside Bahrain. Adventures excite us and we love traveling!

### Prices & Packages

We offer a range of carefully-crafted packages to suit your requirements and budget. Contact us for details to find out what suits you best.
