

Moveolux®

Bronze Sponsor

Moveolux

Ground transportation company founded in 1963, based in Italy, working all over Europe, leader in terms of quality of service, number of local garages, distinctiveness of the fleet (we are OWNER and NOT BROKERS as most of Italian limo companies)

Our office team is extremely detail-oriented, our chauffeurs are very professional and English speaking, our customized fleet is unique all over Europe! We own infact, besides all the Mercedes S or E, minivan and special vehicles such as Range Rover or Tesla, different Limobuses, real private jets on four wheels designed by us. They are the perfect fusion between modern design and Italian elegant style, from 8 up to 30 seaters, with hostess service on board. Passengers are spoiled while seated comfortably on an armchair in front of a crystal table, drinking champagne with fruit while travelling: we covert simple transportation into an amazing experience itself.
